

Notice to Stakeholders: Continuity of Services During Industrial Action

The Services SETA is currently experiencing industrial action linked to ongoing wage negotiations. While operations continue across all business units, there may be potential delays in processing certain requests.

To ensure stakeholders are not disadvantaged, we have implemented contingency measures. Any urgent matters or delays experienced can be reported to servicedesk@serviceseta.org.za, which will be monitored by all senior managers for swift resolution.

We remain fully committed to delivering on our mandate and ensuring minimal disruption to our services during this period.

We thank you for your understanding and continued support.

Services SETA Management
